City of Houston Goals

for

Urban Redevelopment Plans

The overall objective of redevelopment projects in Houston is to assure the maintenance of quality neighborhoods through the revitalization of aging areas and the elimination of slums and blight in order to protect and enhance land values, achieve economic growth and redevelopment and ensure community stability Redevelopment requires the improvement of critical elements in a neighborhood and the maintenance of those improvements through a sustained partnership of public and private investments. Urban redevelopment plans supporting redevelopment projects generally address a range of issues such as community support, economic development, infrastructure needs and affordable housing

The key goals of Houston's urban redevelopment plans include

- Effective participation of neighborhood groups in the creation and implementation of neighborhood urban redevelopment plans
- Development of plans and programs that reflect a unified vision of a neighborhood
- Recognition that neighborhoods in the city vary in their geography, history and demography and that redevelopment plans should reflect the special character of a neighborhood
- Creation of opportunities for development of a range of housing types meeting neighborhood needs with emphasis on affordable housing for families of low and moderate incomes
- Elimination of slums and blight and the stabilization and enhancement of property values in a neighborhood
- Effective utilization of development tools and a range of public and private programs that together lead to comprehensive redevelopment of a neighborhood
- Return to productive use of properties that are in long-term tax delinquency and unlikely to be developed, or otherwise maintained, in the absence of City-assisted redevelopment planning
- Return to productive use of properties perceived as brownfields, where possible
- Integration of neighborhood urban redevelopment plans with the City's Capital Improvements Program and community development block grant (CDBG) funding for projects
